## TO WHOM IT MAY CONCERN

This is to certify that M/s. Associated Builders Corporation Ltd., ABC House (2nd Floor), 8, Banani Commercial Area, Kemal Ataturk Avenue, Dhaka-1213 satisfactorily completed the Civil Construction Work of 210MW Thermal Power Station (4th Unit) at Ghorasal, Narsingdi at an approximate cost of Tk.30 crore (Final Bill value Tk.20 crore plus Tk.10 crore as cost of free structural steel supplied by B.P.D.B.) under a single contract. The work order was issued to them on 19.10.86 and the whole work was completed on 30.06.89. During execution of this Project, they constructed huge raft foundation works of Boiler Foundation, Cable Tunnel, Chimney Stack and Switch Yard upto a depth of 5.5 metre (18 ft.) below ground level at an approximate cost of Tk. 6.60 crore.

Superstructure works of a 10-storied industrial/commercial building of 4685 M<sup>2</sup> (50,400 sqft) accommodating office/s and other utility services and having height of 37 metre (121'-5") from ground level including water supply, sanitary and plumbing works were satisfactorily executed at an approximate cost of Tk.9 crore. The cost of raft foundation of this building was about Tk.2 crore and that of water supply and sanitation was about about Tk.30 lac.

The finishing work of the entire project as well as dismantling of Gantry Track and Railway were also completed satisfactorily by them.

I wish them success.
